

Three Dots Online Shop

Three Dots Online Store

<http://www.shopthreedots.com/>Three Dots is an evolving concept in lifestyle dressing based on great fabrics, inspired design, fastidious construction and the perfect fit. Co-founded by Sharon Lebon in 1995 in California, the company began with three styles, three sizes, twelve colors, it was an instant success. Today, Three Dots is now a multi-million dollar company with an increasing global distribution. The expanded product range includes women's wear, men's wear and maternity featuring exclusive knitwear, cashmere and wovens.

Three Dots' iconic trademark, the ellipses, is heat-stamped directly onto the fabric, reflecting the product's clean, minimal design. The sizes of the garments are differentiated by the color-coded dots. This clever labeling idea is matched by sophisticated design details, including our signature flat-locked stitch.

The company already has a freestanding store in Tokyo 's fashionable Daikanyama district. The brand can also be found at Barneys New York, Fred Segal Couture and select Bloomingdale's, as well as in top boutiques throughout the U.S. , Europe, Canada , Australia and Asia .

A favorite of Hollywood trendsetters and New York hipsters, Three Dots is more than just a fashion collection - it's a lifestyle.
